

Semi Annual Meeting of the Cape GIS Users Group
January 18, 2012; 9:00-12:30

- Update from Anne Reynolds on NEARC 2011 and the Smarter Cape Partnership
 - The predominate theme of NEARC Saratoga Springs was open data
 - Esri acknowledges that GIS is done outside the desktop environment
 - Cloud based consumption of data becoming universal
 - SmarterCape Partnership met in April and December
 - <http://www.smartercapepartnership.com/>
 - Planning on how the Cape can take advantage of this trend with the completion of the Open Cape colocation center.
- Update from Open Cape by Gary Delius, Construction Coordinator
 - <http://www.opencape.com/>
 - On target for completion January 2013
 - Rolling live starting Phase 1 Brocton to Plymouth
- Update from MassGIS on Building Mass Spatial Data Infrastructure
 - See [presentation](#)
 - Also concurring on open data
 - Oliver (MassGIS online data viewer) updated
 - http://maps.massgis.state.ma.us/map_ol/oliver.php
 - Successful example of Esri and open source software partnership
- Update from Tom Mayo on recent Master Address Table Pilot Project
 - Successful example of regional partnership
 - See [report](#)
 - Questions:
- Conversation about regional opportunities
 - Brief report on regional e-permitting, licensing and inspection
 - Universal agreement on forming a sub-committee to brainstorm other regional GIS projects
- Trends presentation from AppGeo
 - HTML 5
 - Data sharing
 - Open source
 - See [presentation](#)

Next steps:

1. Form sub-committee with sub-regional representation to inform regional GIS opportunities
 - a. Contact [Anne Reynolds](#) if interested
2. Contact FEMA for FIRM update
3. Design plan for regional flyover and planimetric data collection
