

Description of **Human Use of the Planning Area**

ISSUES BEING EXAMINED:

■ Allowed Activities ■

EXISTING ACTIVITIES that can be represented by maps showing areas of activity include:

- Areas of high commercial fishing effort and value
- Areas of concentrated commerce and commercial fishing traffic
- Areas of concentrated recreational fishing
- Areas of concentrated recreational activity

ADDITIONAL ACTIVITIES that occur in or over the ocean that may be considered include:

- Commercial flights in and out of Cape Cod Airports
- Sight-seeing flights

OPPORTUNITY FOR NEW ACTIVITIES allowed through the Massachusetts Ocean Management Plan:

- Renewable energy
- Sand and gravel mining
- Cables and pipelines

Questions for Stakeholders:

Are there additional human-use activities within the planning area that have been overlooked?

Is there specific additional data that should be incorporated into the analysis?
