

Legend

Percent Nitrogen from Fertilizer

	0.0		7.0 - 7.8	 Estimated Percentages for Watersheds Not Having a Completed MEP Report
	0.1 - 5.0		7.9 - 12.0	
	5.1 - 6.9		12.1 - 24.0	

Note: Estimated fertilizer use is watershed based and is not parcel specific. Fertilizer data shown has been obtained from the Massachusetts Estuaries Project (MEP) Watershed Technical Reports. The data is available at <http://www.oceanscience.net/estuaries/reports.htm>. Values for watersheds without a MEP report were extrapolated from known data within completed reports.
