MINOR MODIFICATION #1

Project: Industrial Communications and Electronics, Inc.
40 Lone Street
Marshfield, MA 02050

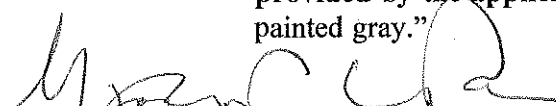

Date: May 11, 2006

The above-referenced project for a 150-foot ICE wireless tower in Osterville, MA was approved by the Cape Cod Commission as a DRI on December 15, 2005. The applicant has received a preliminary certificate of compliance dated March 16, 2006 and is preparing construction plans for the co-locators equipment shelter. However, minor changes need to be made to the approved plans to account for necessary modifications to the co-locator's equipment shelters (refer to Technical Specifications for outdoor 12' x 12' concrete pads for the installation of outdoor equipment cabinets provided by the applicant dated April 28, 2006).

Determination

The Executive Director of the Cape Cod Commission has determined that these revisions are *de minimus* changes and are approved as a Minor Modification #1. This action will be reported to the Regulatory Committee at its next meeting. The following changes shall be made to the decision to reflect the revisions described above:

- Page 9: Condition 6 should read "The proposed Project shall be constructed as a 150-foot monopole with platform-style antenna mount for Cingular, TMobile and Verizon and up to two (2) additional wireless carriers, with accessory equipment shelters, as shown on the site plans prepared by Industrial Communications Engineering Division dated October 18, 2005 and modified per technical specifications for 12' x 12' concrete pads for the installation of outdoor equipment cabinets provided by the applicant dated April 28, 2006. The monopole will be painted gray."

Margaret L. Fenn, Executive Director
