To Whom It May Concern:

This note is in regard to the cell tower proposed to be erected on/near Red Brook Road. I am not in favor of this initiative.

I live in the area and often walk up and down Red Brook and through the side streets in the area (Degrass, Surf Drive, Blue Castle, etc.). I have never in the 6 years that I've lived here had an issue with cell reception in these areas.

If the residents of New Seabury are concerned about cell reception in the New Seabury area, then put the tower in New Seabury.

Placing a tower in a residential neighborhood that is not even experiencing cell phone connectivity issues is unconscionable.

Regards,
Claudia Fragnito
