The October 18th hearing on the matter has not been cancelled; it will proceed as continued by the subcommittee on Sept. 17th. It is a full public hearing and anyone who so chooses may present testimony at it to the full Cape Cod Commission body. This afternoon's subcommittee meeting at Cape Cod Commission offices is open to the public, but it is not a hearing where oral public testimony will be received. The subcommittee will formulate its recommendation to the full Cape Cod Commission body at its meeting this afternoon, which is generally in the form of a recommended decision.

Mr. Idman and the Sub Committee members,
We attended the Sept 17th meeting along with several other abutters to this project. At that meeting we were told that the next meeting would be Oct 18 at which time the sub-committee would present their findings to the full commission. and it would be a public meeting but the public would not be able to speak.(this should be noted in the minutes of the Sept 17th meeting)Now we see that meeting has been changed to Oct 9th and the Oct 18th meeting is now a public meeting with the full commission.

Since the Mashpee Town meeting is on Oct 15th at which time Article 14 will be voted on by the town.Article 14 is a request from the selectmen to place this property in the Mashpee Wireless Overlay district because it is not currently in the overlay(in a residential zone and in the Mashpee Wildlife Refuse)

it is curious that this meeting was changed to occur BEFORE town meeting as opposed to AFTER the town's people have made their vote.

Since we will be banned from speaking by the Cape Cod Commission at this public meeting I am writing this staement.

Commissioner Beaty,
Please find forwarded an email sent to the Cape Cod Commission this evening. We are abutters to the Mashpee Cell Tower currently being processed by the Cape Cod Commission for the first time in our lives we feel as though we live in a country where citizens have no rights and person's with power can report information that is not truthful. We would appreciate any assistance that you could provide for us
