I am writing in favor of the proposed cell phone tower at Mashpee Fire Station #2; 101 Red Brook Rd., Mashpee.

We have a second home in New Seabury and we have virtually NO cell phone service. Sometimes my phone will ring, sometimes I can answer the call and then it drops. Often I cannot access the voice message that is left. I need to go outside and try to find a spot where I will get service.

This is outrageous in 2018. When we bought our condo in 2002, we figured within a few years we would have better cell phone service since that was our experience in many other places that we frequented. Unfortunately, that has not been the case.

Please approve this tower and bring Mashpee into the 21st century of cell phone service.

Thank you,

Meda Turetsky
