Jon Idman, Chief Regulatory Officer
3225 Main Street
Barnstable, MA 02630

Dear Mr. Idman,

On behalf of the Town of Dennis, we have reviewed National Grid's proposed Mid-Cape Main Replacement project. Public utilities are provided for within the Dennis Subdivision Regulations to be included in all street designs. As such, the proposed project complies with the Zoning Bylaws and Subdivision Regulations for the Town of Dennis.

The current gas moratoria is having a dampening effect on the area economy, the quick resolution to this situation is important to Dennis and the region. We look forward to continuing to work closely with National Grid on this important project.

Sincerely,

Daniel J. Fortier, AICP
Town Planner
