Hi Jon,

Please see email below. Can you please respond to this. I'm not sure what you're doing with information that you receive that will eventually be given to CCC Members regarding this so I'll let you take care of this.

Thank you, Gail

Subject: Sandwich Mega Sports Complex

Please give this information to the commissioners who will be hearing this issue. First, have you heard from anyone who is in favor of this project? It seems that only the misguided Sandwich selectman are in favor of this project. And, since they refuse to give the residents of Sandwich an opportunity to vote on this, the responsibility to approve/disapprove, lies with you.

This is definitely a project of regional impact, as it will effect all the approaching roads. Route 6A, Cotuit Road, Quakermeetinghouse Road, and route 130, are all 2 lane roads, and will be seriously negatively impacted by this project. The project is in the middle of residential neighborhoods, who will be severely impacted by this project. Can you imagine thousands of people trying to access this sports complex. Traffic now is not good, it will become a disaster. This alone should be reason enough for denial of this project.

Would you like to be living next door to a stadium, and hearing loud play by play announcements. Or not be able to see the night sky, because of the stadium lights. I think not.

What I am even more worried about, is how this would change the character of "The Oldest own " on Cape Cod. We don't want to be the "Sports Destination " of the Country. We want to continue to be about History,Heritage Plantation, The Glass Museum, The Beaches, and all the other wonderful things that Sandwich offers. This proposal would change all this forever.

Please vote to deny this terrible project Thank You, Steven & Pamela Shakin
