Hi Cape Cod Commission

I currently live in Canterbury Estates right across the street for this very exciting project. My family name goes back to the 1700's in Yarmouth Port, Ma. I am in full support of this project, I have heard a lot of negative comments about the charm of Cape Cod for ever since I grew up in Dennis, Ma in the 50's. The Cape is very charming and not highly commercialized and since we are in the top 10 destinations to visit we need these type of industries to move the cape forward. The young people are leaving in droves, No high paying jobs, No much of a future for young families to live on cape cape to make a descent living other than a few industries on the Cape. For example Sandwich has lost 1400 students in the past 10 years. Every town on Cape cod is loosing our young people things need to change now are the entire cape is in serious trouble and this lands at the feet of the Cape Cod commission and our town Leaders the reverse this trend. In Sandwich everyone complains about our town being the highest taxed town on Cape Cod. This project is projected to bring in 2.5 Million in revenue per year this is huge for our town and to bring more tourist to the Cape Cod to spend money in restaurants, local business, Museums, and Beaches, etc. The Cape and Sandwich needs this project big time. Field House that will house a conference Center, gymnasium, ice hockey, swimming pools, Hotels, ball fields. To me this is a dream project and I hate to say it but, their are a lot of wash ashore who do not want any development of any kind on Cape Cod and they are the first to complain whey taxes are so high, no jobs, roads are a nightmare, etc. I am sure you get the picture.. I am sure waste water and traffic mitigation will be worked out for all concerns.

Have a great day

Steve Chalke
