Subject: sandwich sports complex

To the Commission - I am a citizen of Sandwich who is horrified and appalled that a project like this would be proposed for any town on Cape Cod. This project will not blend with the surrounding environment as town bylaws and commission standards require. It will create a continuous traffic nightmare (has anyone reading this ever tried to travel the Canal Road when there is a hockey tournament at Gallo Arena in Bourne) which creates horrible air pollution. The number and size of buildings and parking lots is totally out of sync with the Cape Cod ambience. This type of project would fit well in Los Angeles, not Sandwich. The light pollution caused by this project will change the calm skies forever. When was the building height allowance changed to accommodate such a massive structure? There is nothing good about this project. The tax revenue it might generate upon its completion many years down the road is not an acceptable price to pay for the everlasting changes to Sandwich- the oldest town, one of the most scenic towns. There are many residents of Sandwich who feel that the Board of Selectmen are not working in our best interests in this matter. We've been hijacked and they're not listening to our pleas to stop this project right now. We want our 56 acres back. Thank you. Lynn E. Cormay
