Jim,

As a practical matter, I don't expect any Commission public hearings or meetings on the matter for some time. The applicant must first proceed through and complete the state MEPA review process before filing a development agreement application. Of course, when the project returns to the Commission for review, if the applicant desires to proceed with the project, Commission public meetings or hearings will be noticed as required.

Regards,

Jonathon D. Idman  
Chief Regulatory Officer  
Cape Cod Commission

Subject: Sports Complex

Jonathon,

Would you please keep me apprised of upcoming meetings and/or hearings that relate to the proposed Sandwich sports complex.

Do you have any idea of the timeline for these meetings ?

Parenthetically - I know Roger Putnam from Wellfleet (where I spend a good part of Summer).

I like him and have always admired his outspokenness on the CCC.

Even though I was not allowed to read publicly from a newspaper article, I'm willing to get on with the public process.

Please keep me informed.

Jim R
