RE: Springhill Suites by Marriot (TR/LR 14017), Falmouth

To who it may concern:

The Springhill Suites project at the proposed location is entirely inappropriate with both the existing character and the character goal of the portion of Main St. under consideration.

It is the Falmouth Historical Commission's goal to maintain Main St.'s historical character starting from the east with the Poorhouse at 744 Main St. west through the Village Green which encompasses the proposed location. Needless to say, a project of this magnitude would be an anathema to this goal.

Therefore, the Falmouth Historical Commission opposes the Springhill Suites by Marriot project at its proposed location.

Sincerely,

J. Malcolm Donald, Chairman  
Falmouth Historical Commission
