Hello Malcolm:

It has been brought to my attention that the attached letter was sent to the Cape Cod Commission absent a vote of the Historic Commission.

We have previously discussed the process for officially communicating with outside agencies utilizing town letterhead. It is vitally important that this process be adhered to so that these agencies can rely on our communications as official actions of boards and committees. This is especially true in a regulatory environment.

This needs to be on the next agenda of the Historic Commission for a vote authorizing your action.

Thank you for your understanding
