Cape Cod Commission:

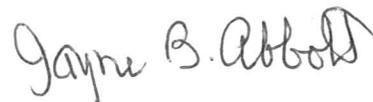

I always believed Falmouth passed the bylaw change for East Main Street to encourage additional apartments so sorely needed by the Town. I pictured individual stores with the second floor for apartments. Or possibly like Mashpee Commons with several businesses on the ground floor and apartments above.

I never dreamed of a monstrous Marriott on both sides of now peaceful Lantern Lane with a connecting overhead walkway. And all the cars parked under, behind and across in the lot on Main Street. Picture them moving in and out in that small area!

Importantly I think this will diminish activity for our present in-town businesses because of the difficulty of their regular customers getting to them from the east.

In discussing plans for Route 151, why perhaps think of a Marriott there?

I do hope The Cape Cod Commission will not approve this plan.
