It would be up to the local office. I cannot speak to what they can or cannot do.

I'd be happy to leave a disk here with reception. Let me know if you'd like me to do so.

Hoping you saw my last email asking for one more try to the office email (which has been expanded to receive up to 50MB files). Since we're in Falmouth, driving to Barnstable to pick up a CD is out of the question time-wise. If one more attempt doesn't work, are we allowed to ask the Falmouth Planning Department to put it on a CD for us so that it is accessible to us? (I think I asked them and they said we had to ask you for the files.)

Thanks—
Meredith

Meredith,

I'm sorry, but I just attempted to send to your personal email and it also failed. I am heading out for the day, but I can put a disk downstairs for you tomorrow if you'd like.

No worries. They are about 38mb combined, so I will send them along in 10 minutes.

Jeffrey,
I just got off the phone with our IT support people and they're increasing the file size for receiving attachments to 50MB (which should take 5-10 minutes). Is the file larger than that? If not, would you mind giving it another try in 10 minutes to this email address? Thanks so much!

Meredith,

I just got failure notices that the files were too large for both emails I sent. I checked with our IT staff, and the limitation must be on your end. I sent both in one email yesterday to the town. I could put the documents on a CD that you could pick up at our office.

Best,

Jeffrey

Hi, Jeff. Just letting you know that I have NOT received the plans yet (in case you already sent them).

Hi, Jeffrey.

I'm writing to see if you can provide the corporate contact information on the Marriott project as well as the name and contact information of the project architect. We have requested copies of the plans that are available at the Falmouth Planning Department, but they won't have that ready until tomorrow, so I'm hoping you might have this information at the ready.

Thank you!

Meredith
