June 8, 2015

Dear Mr. Hanley:

I do not know whether the Cape Cod Commission has been asked to oversee the newest controversial project of the Mariott Hotel on Main Street, Falmouth. If not, the residents abutting this huge proposal desperately need help to ensure their tranquility and quality of life, not to mention the devastating impact this has on the small town character of the town, residential neighborhood, impact on town services, and congested traffic.

The Selectmen directed the Farmers Market, which was located on Main Street, to locate much further away at a park on Scranton Avenue, far away from the business district. The stated reason for this decision was that the market caused too much traffic. The market's hours were only from 1-4 each Thursday afternoon throughout the summer.

Any information or advice you could give me in order to help the neighbors would be greatly appreciated.

Yours truly,  
Linda D. Whitehead
