**Subject: 556 Main Street, Falmouth MA
Proposed SpringHill Suites, Marriott**

Dear Members of the Commission,

I am a resident of the Town of Falmouth and I have been following the application of Falmouth Hospitality LLC regarding the proposed development of a SpringHill Suites hotel at 556 Main Street. I am very familiar with the site and the current condition of the property is deplorable. The lot is an ideal candidate for redevelopment. Located on the well developed Main Street in downtown Falmouth, this site is where one would expect the construction of a hotel. I have reviewed the plans and proposed architecture and I believe that, after construction, the hotel will not only be a beautiful addition to downtown but also serve a vital need within the Town of Falmouth for year round accommodations in a branded hotel chain. In addition, the Town of Falmouth will certainly benefit from the added property tax and room tax revenue that the hotel will generate. I also expect that the development of this hotel will create jobs and bolster existing Main Street businesses as guests of the hotel shop and dine within the current Main Street establishments. I am in full support of this application as proposed and encourage the Commission to approve this project. This is precisely the type of business development that Falmouth needs. Thank you for your consideration.

Sincerely,

Arvid Mesue
