Subject: Falmouth hotel proposal

To the Cape Cod Commission
RE: proposed Marriott Springhill Suites construction

I am writing as a Falmouth resident with serious concerns about the proposed Marriott Springhill Suites hotel.

While I am skeptical about many aspects of the plan my particular concerns have to do with the increased vehicle traffic and pedestrian crossing in that part of town. You are already familiar with this point of view I know and my hope is that you will understand the annoyance this will add to an already congested area. This is not an isolated area affecting few people but the center of Falmouth where residents of all villages of Falmouth pass through.

My other concern and one which occurred to me as the discussion has continued has to do with the possibility that as businesses come and go in Falmouth with alarming regularity that instead of being a financial asset to the town as claimed by the proponents if it fails Falmouth might be left with a white elephant.

I truly hope that the commission will find a way to deny this proposal for this site. I can imagine that it could be an asset to another part of town where it might revitalize an area not already dealing with maximum tourist traffic.

Thank you for all your work and concerns.

Sincerely

Nan Logan
