Cap Cod Commission members: 15 Aug 2015

I represent one of many Falmouth residents who have spoken against letting this project go forward. We are all disappointed that the draft report approves the project. You need to realize that if you approve the project something very large and inappropriate will get built. Do not think that you can leave it to the Falmouth town boards to make it acceptable. Once you approve this project all that town boards can do is request minor detail changes. The point we were trying to make in the public hearings is that we do not want or need such a large hotel so it should be rejected. No change in surface appearance or exterior materials will make it acceptable.

Please do not approve this project. Tell the subcommittee that the draft report is not acceptable and needs to be changed.
