Subject: Marriott Falmouth project

Please reject the proposal for the Marriott project in Falmouth.

This project is inconsistent with the character of that part of town. The elevation drawings overlay of the surrounding neighborhood depicts a much different outcome than the standalone drawings submitted with the proposal.

A project this size is a travesty and will ruin the character of the neighborhood and surrounding environment.

Traffic is already an issue with much smaller businesses. Water quality and sewer/waste water is already strained.

Please stop this project.

Thank you,  
Robin Bowerman  
West Falmouth
