A few weeks ago I attended a CC Commission discussion by the entire board re the Falmouth Springhill project. It was an impressive meeting, especially as compared to several sub committee mtgs which I had attended in the past few months.

The professional demeanor and conduct of the chair was greatly appreciated. All who spoke, both the Board and general public, were treated with respect followed by discussion and clarification where appropriate. The questions from Board members indicated concern both locally (business community and citizens of Falmouth) and regionally bearing in mind the vision of maintaining Falmouth as a quintessential village on Cape Cod.

Many questionable statements were made from both sides of the table and I appreciate the great amount of time spent teasing out the facts by the Commission. It is abundantly clear how the vast majority of Falmouth residents feel and quite puzzling why another location either further east on Main St or in other parts of town will not be used.

I hope to next write a thank you note to the Commission after this project has been rejected.

Thank you

Sincerely,
Elizabeth A. Page
