COMMISSION

Appendix E: Remote Counting Locations

Cape Cod Commission Traffic Counting Report 2016
Counts Conducted 2010-2016

REMOTE COUNTING LOCATIONS

Since December 2010, in-pavement traffic counting detectors have recorded vehicles on the approach lanes to the Route 137/Route 39 Intersection in Harwich. Collectively, counts from these lanes when added together result in a “Total Entering Volume.”

In July of 2012, similar equipment became operational at the intersection of Route 124/Queen Anne Road also in the town of Harwich. An additional counting location became available in January of 2013 at the intersection of Route 28 and Lumbert Mill Road in the town of Barnstable.

The data presented in this appendix include the Total Entering Volume for each day of the month beginning with December 2010 up to December 2016. When erroneous data occur or there are recording problems, temporary outages occur (these result in blanks for days when this occurs). The available days’ data are averaged together resulting in the “Monthly Average Daily Traffic.”
