Massachusetts solid waste regulations mandate recycling of glass and metal containers, narrow-necked single resin plastics, recyclable paper, lead and other rechargeable batteries, leaves and yard waste, tires, white goods, television sets and computer monitors. This means these materials are banned from disposal in household trash. Prepare household items for recycling as directed by your recycling center. Rinse empty containers and remove caps before recycling. Keep liquid wastes in separate, closed containers for transport to recycling centers.

Compiled by Cape Cod Cooperative Extension, Deeds & Probate Building, PO Box 367, Barnstable MA 02630-0367
<http://www.capecodextension.org>

* Recycle nickel cadmium, nickel metal hydride, lithium and small sealed lead rechargeable batteries. Throw alkaline batteries in the trash.

[^] Recycle fluorescent bulbs, thermometers, thermostats and switches containing mercury.

Recycle televisions and computer monitors with cathode ray tubes containing lead.

** Sticker needed to use Transfer Station Facility

revised April 2007

\$ There is a charge for these items.
