SUMMARY

Pursuant to Section 13 of the Cape Cod Commission (Commission) Enabling Regulations
(Revised November 2014, with Revised Fee Schedule Effective July 1, 2017), the Development of
Regional Impact (DRI) decision dated December 1, 2016 for the above-referenced project is
hereby amended as a Minor Modification Type #1 to allow for more restrictive conditions
imposed by the Energy Facilities Siting Board (EFSB) as discussed herein.

All findings and conditions attached to the original decision continue to apply except as
modified herein.

DISCUSSION

The Commission issued a DRI decision, with conditions, to NRG Canal Development LLC which
decision approved the construction of an approximately 350-megawatt peak electric generating
unit on approximately 12 acres of the existing 52-acre Canal Generating Station site.
The Commission received a request from the Applicant to incorporate a change in the overall height of the main stack of the Project, as required by the EFSB during State-level review, for the stated purpose of decreasing environmental impacts from air emissions. These changes were approved by the Old King's Highway Historic District Committee on August 9, 2017.

In addition to being a more restrictive condition imposed by another permitting board, the increase in stack height represents a de minimus change in the Project, as the +/-30-foot increase will have an insignificant visual effect due to the proposed stack being significantly smaller in mass and shorter than the buildings and stack associated with the existing generating units, Units 1 & 2.

CHANGES TO THE DRI DECISION

The Decision is hereby modified to allow for the proposed change in stack height. All work shall be done in accordance with the following plan sheets received by the Commission on September 1, 2017, which are hereby incorporated by reference into the approved plans set out in the Decision to either supplement or substitute for those plans, as the case may be.

Simple Cycle Turbine Facility Project South Elevation (Looking North), prepared by CB&I, dated 9/16/2016, revised 7/25/2017 (showing structure elevations and proposed materials/colors)

Simple Cycle Turbine Facility Project North Elevation (Looking South), prepared by CB&I, dated 9/16/2016, revised 7/25/2017 (showing structure elevations and proposed materials/colors)

Simple Cycle Turbine Facility Project West Elevation (Looking East), prepared by CB&I, dated 9/16/2016, revised 7/25/2017 (showing structure elevations and proposed materials/colors)

Simple Cycle Turbine Facility Project East Elevation (Looking West), prepared by CB&I, dated 9/16/2016, revised 7/25/2017 (showing structure elevations and proposed materials/colors)
