Circuit Avenue, Bourne

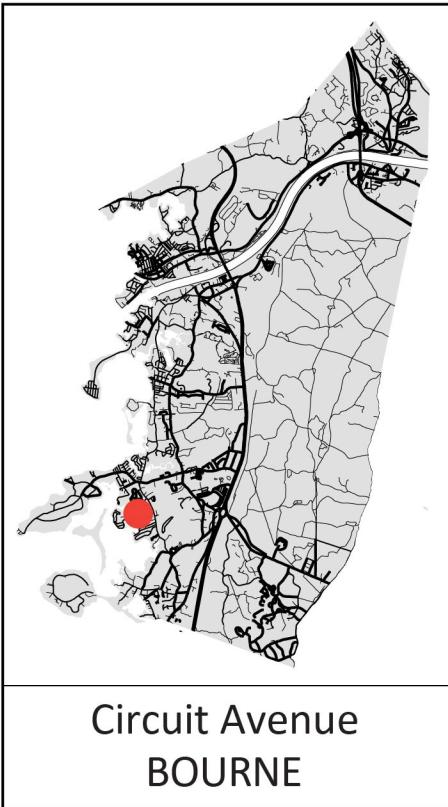

EXISTING CONDITIONS
Circuit Avenue, Bourne

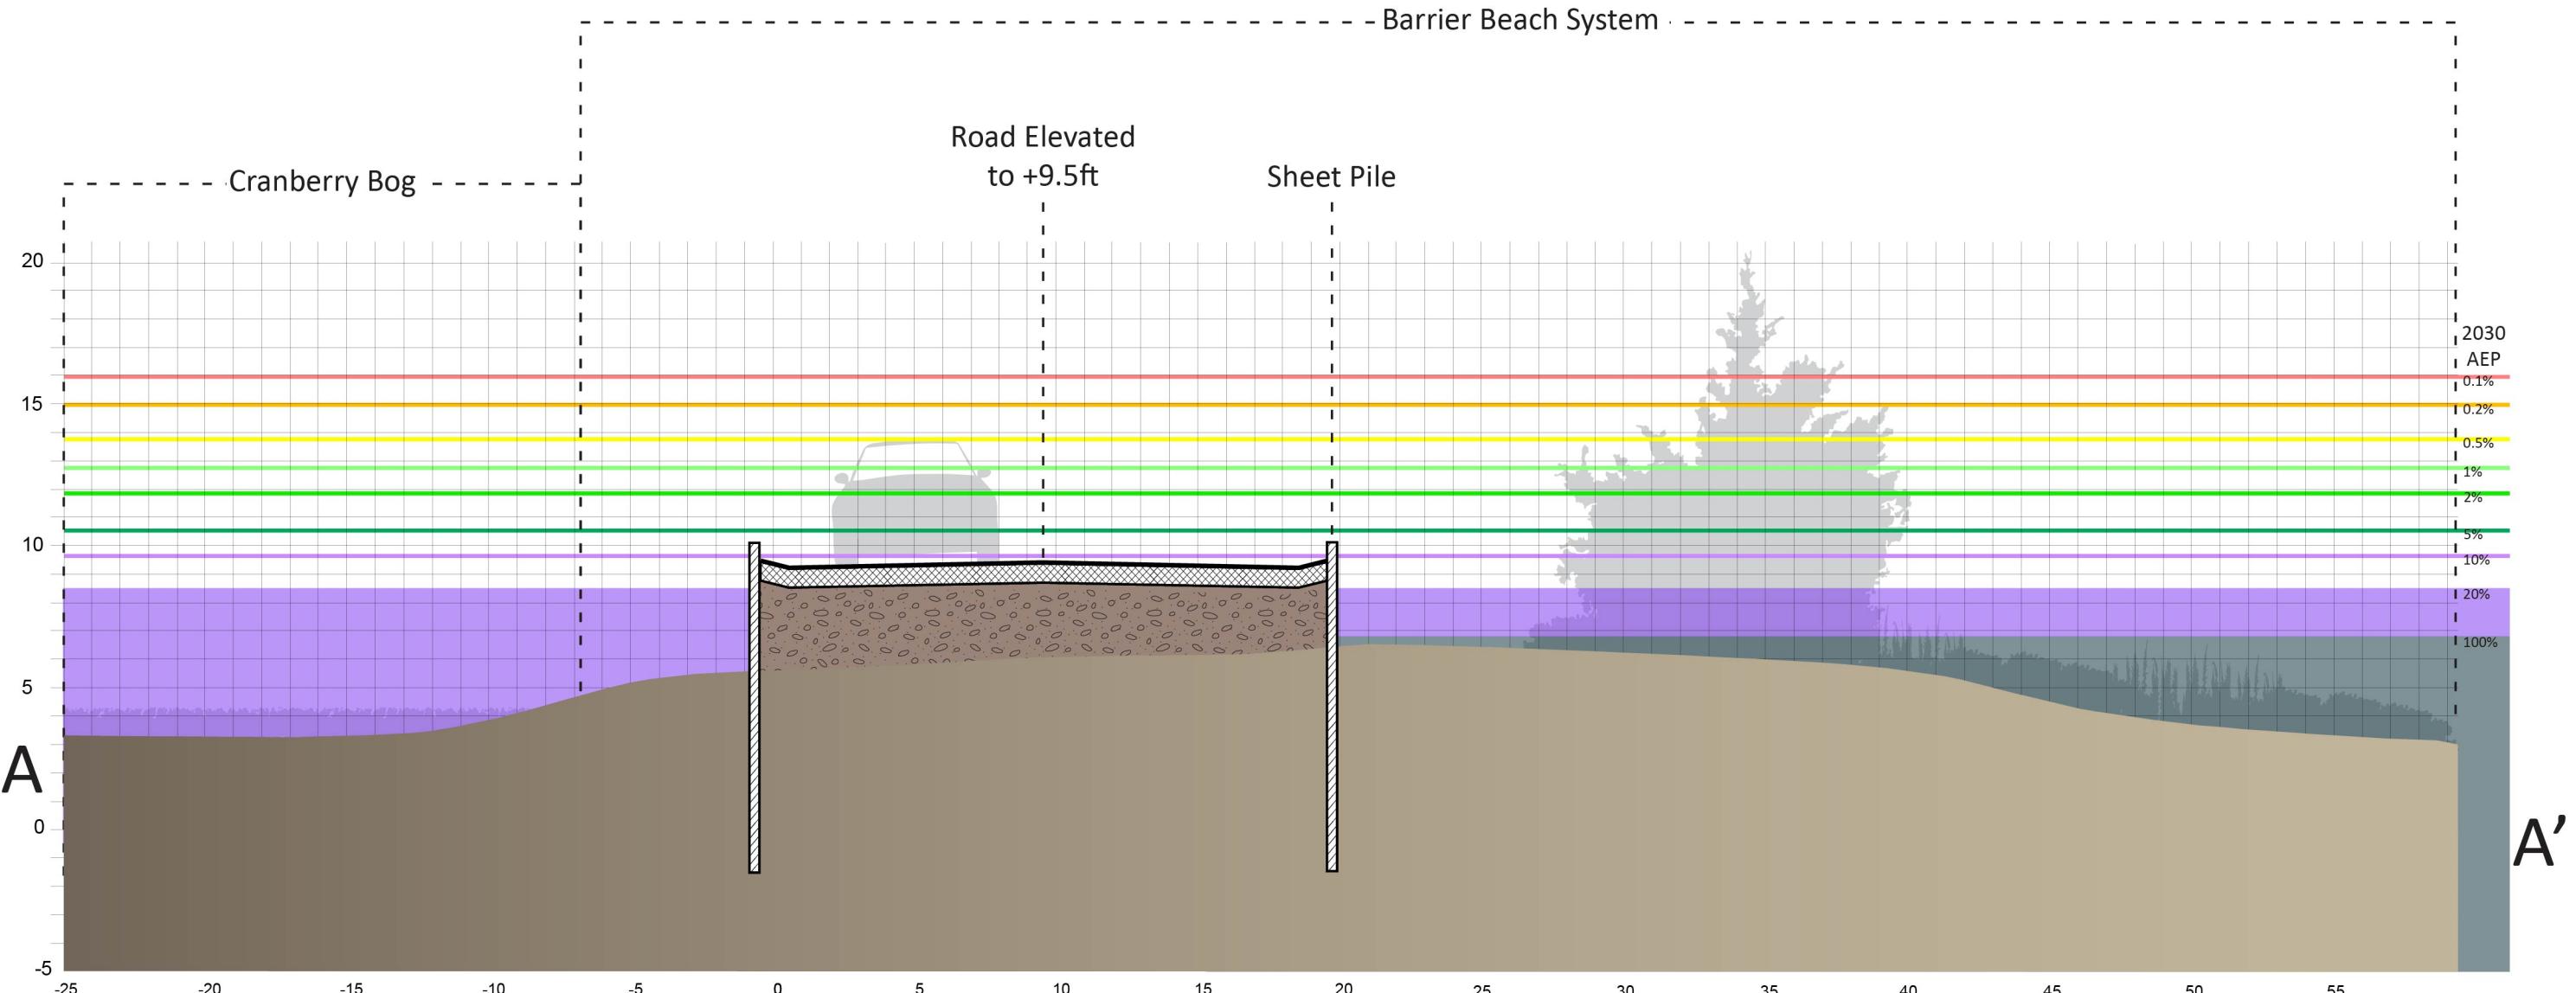

Note: Project overlap with wetland areas, rights of way and property lines is approximate and needs confirmation with a site survey

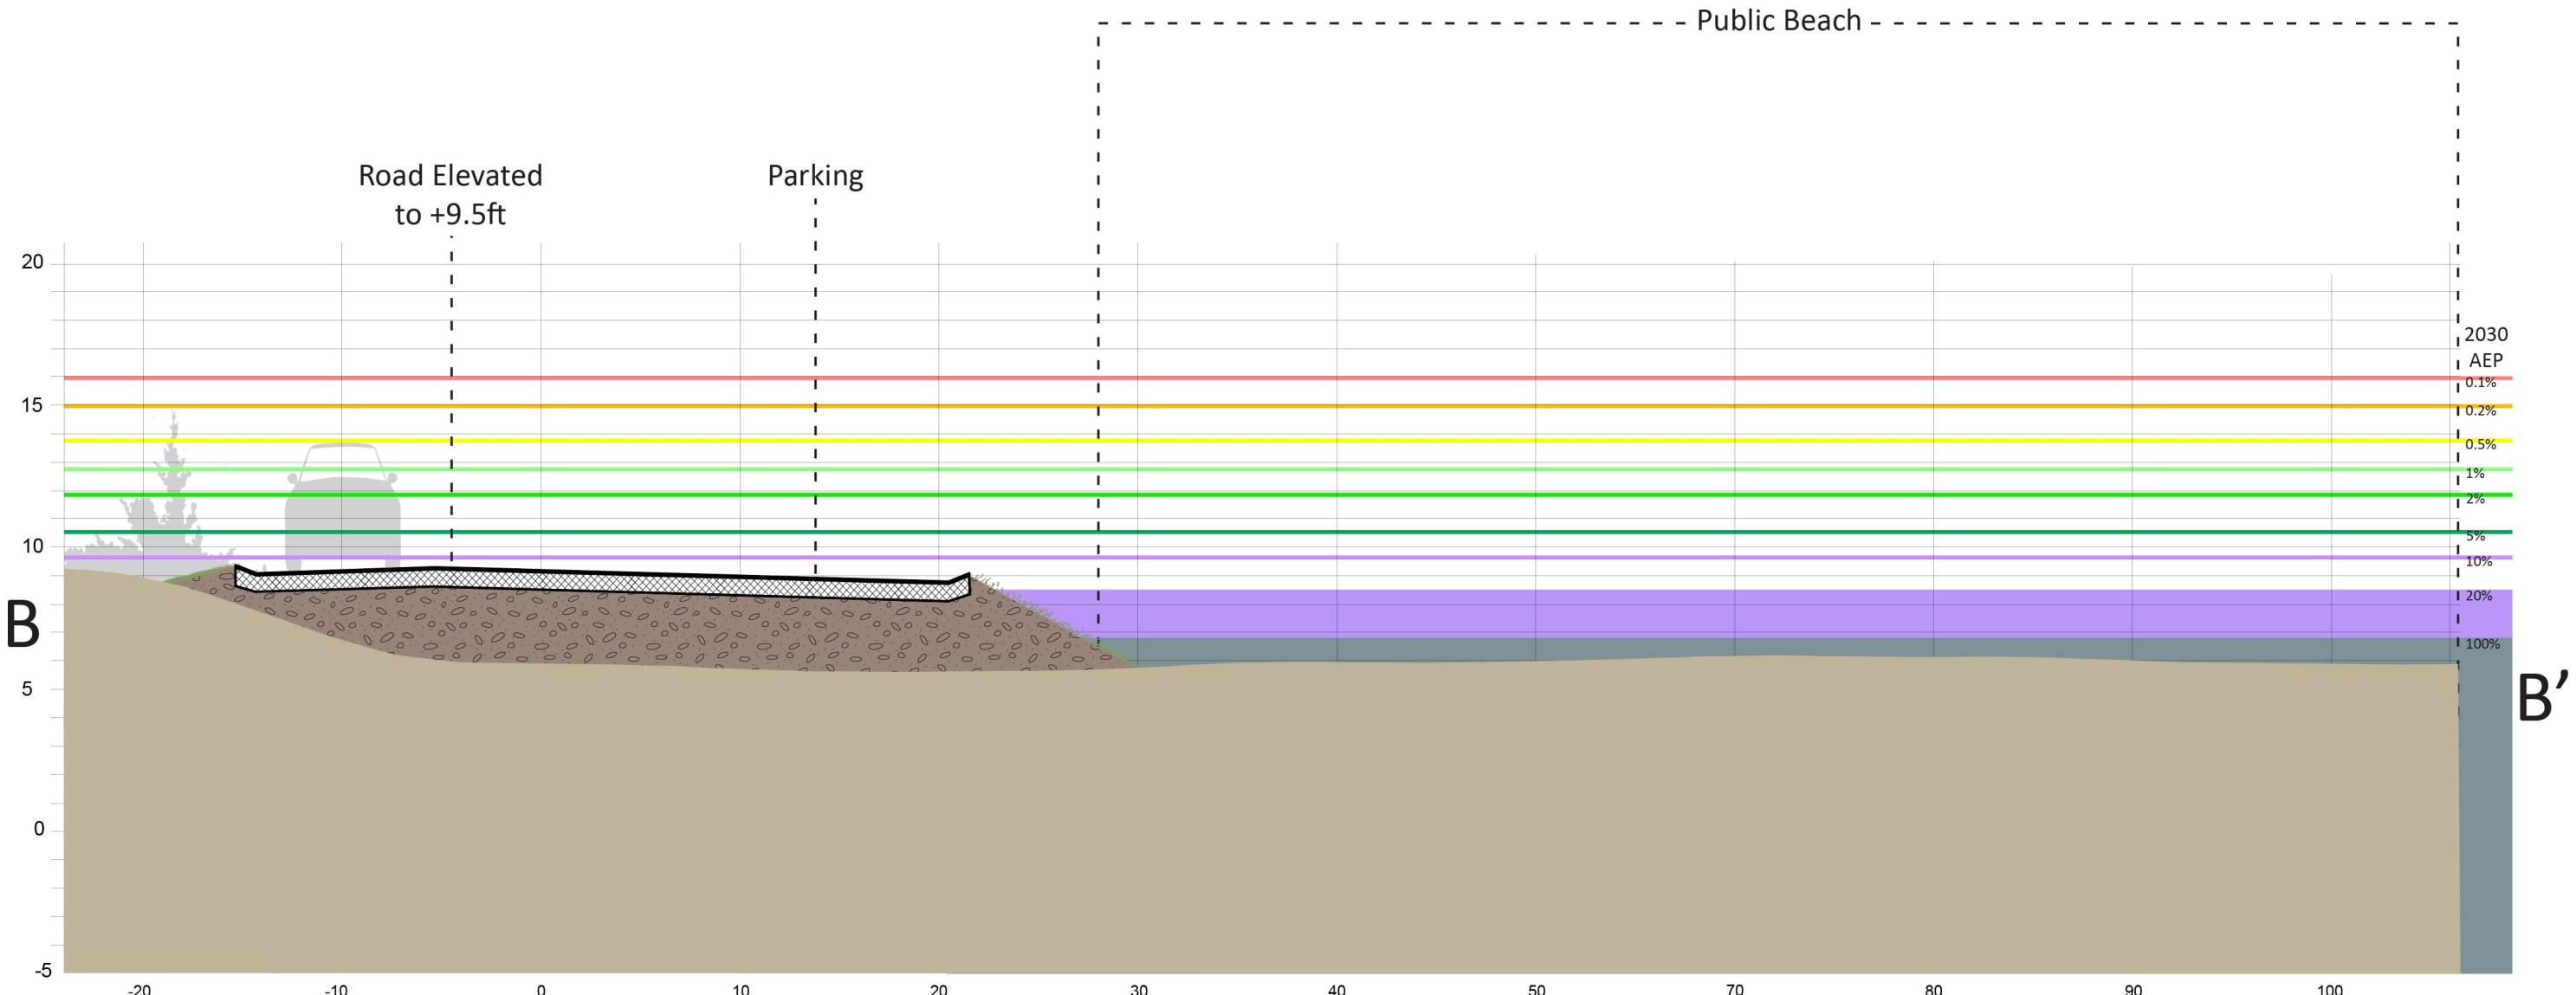

ALTERNATIVE 1: GRAY

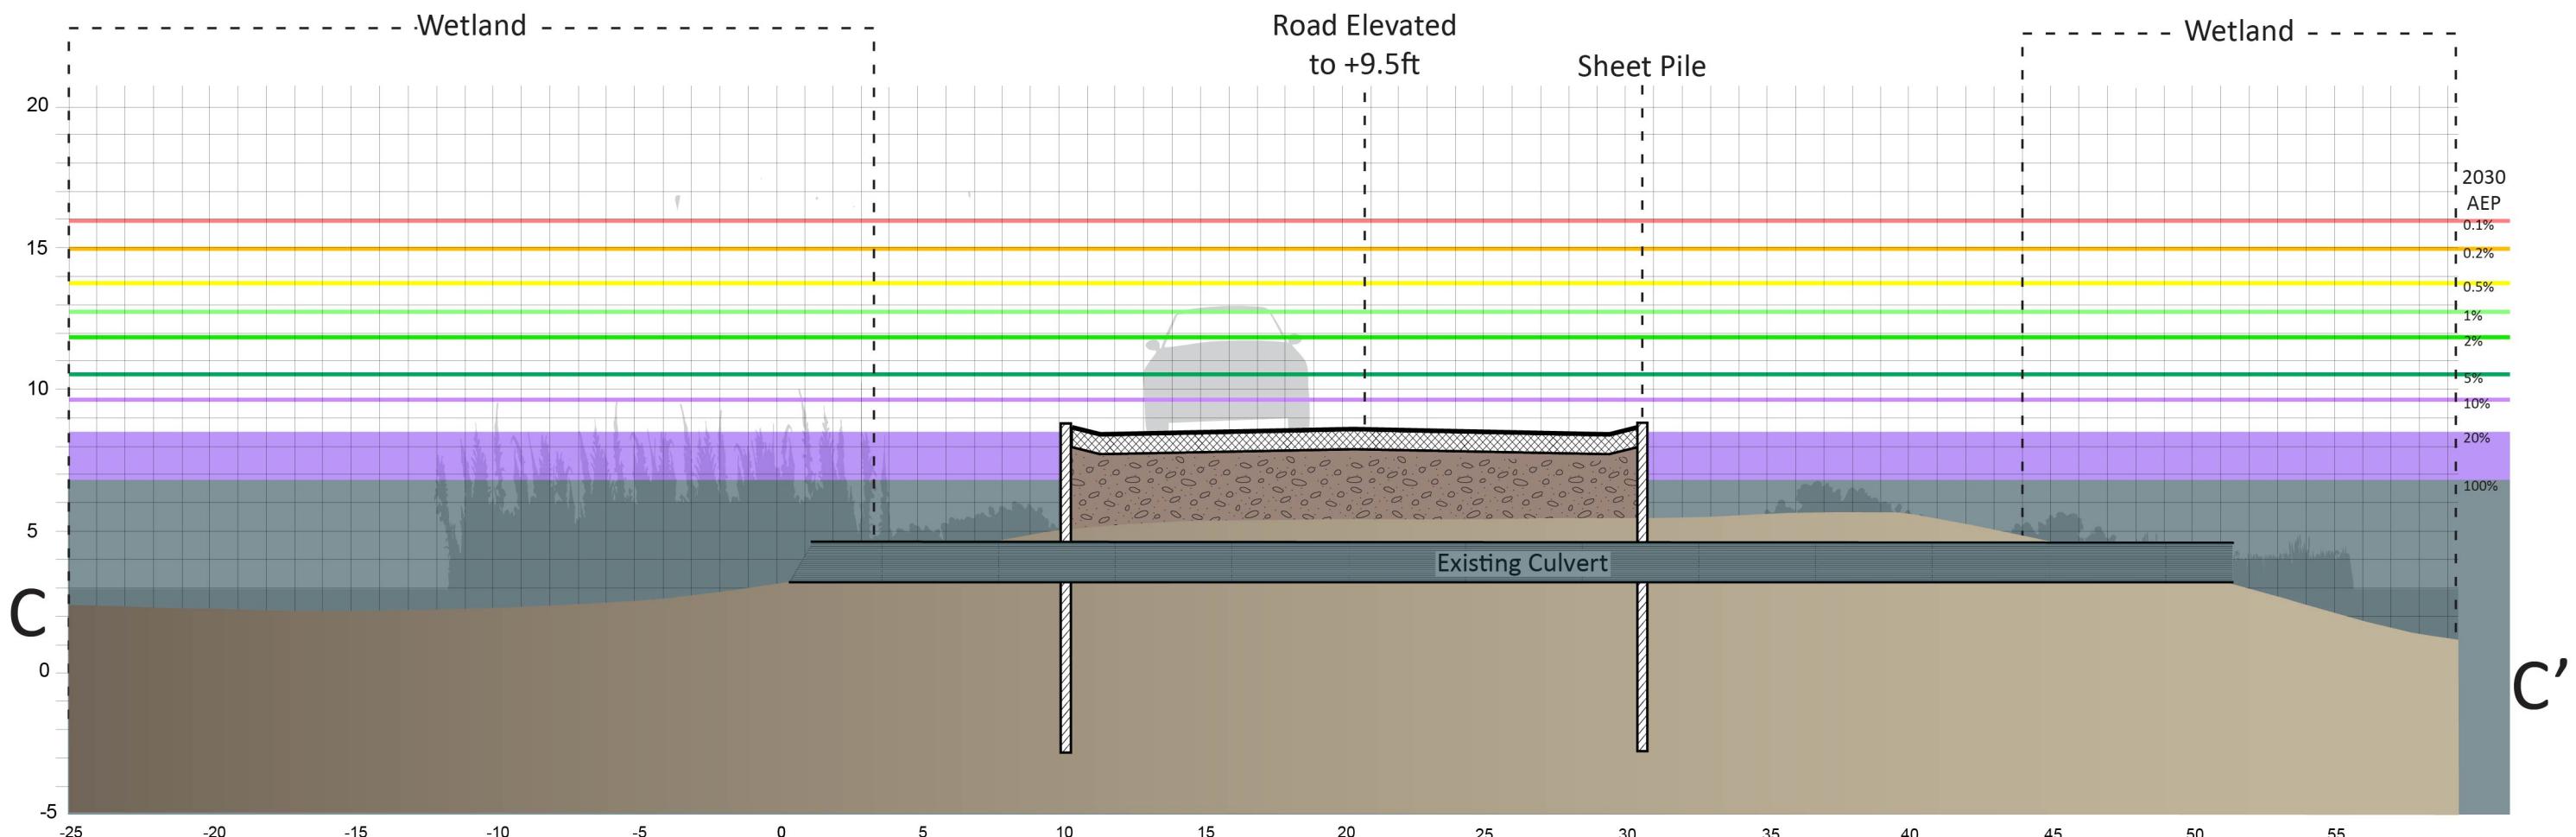

2452 linear feet of Town-owned road are elevated from a lowest point of 3.8 feet to a lowest point of 9.5 feet. Sheet pile is used to elevate the road at the cranberry bog and culvert crossing, and traditional vegetated side slopes are used at other locations.

Circuit Avenue
BOURNE

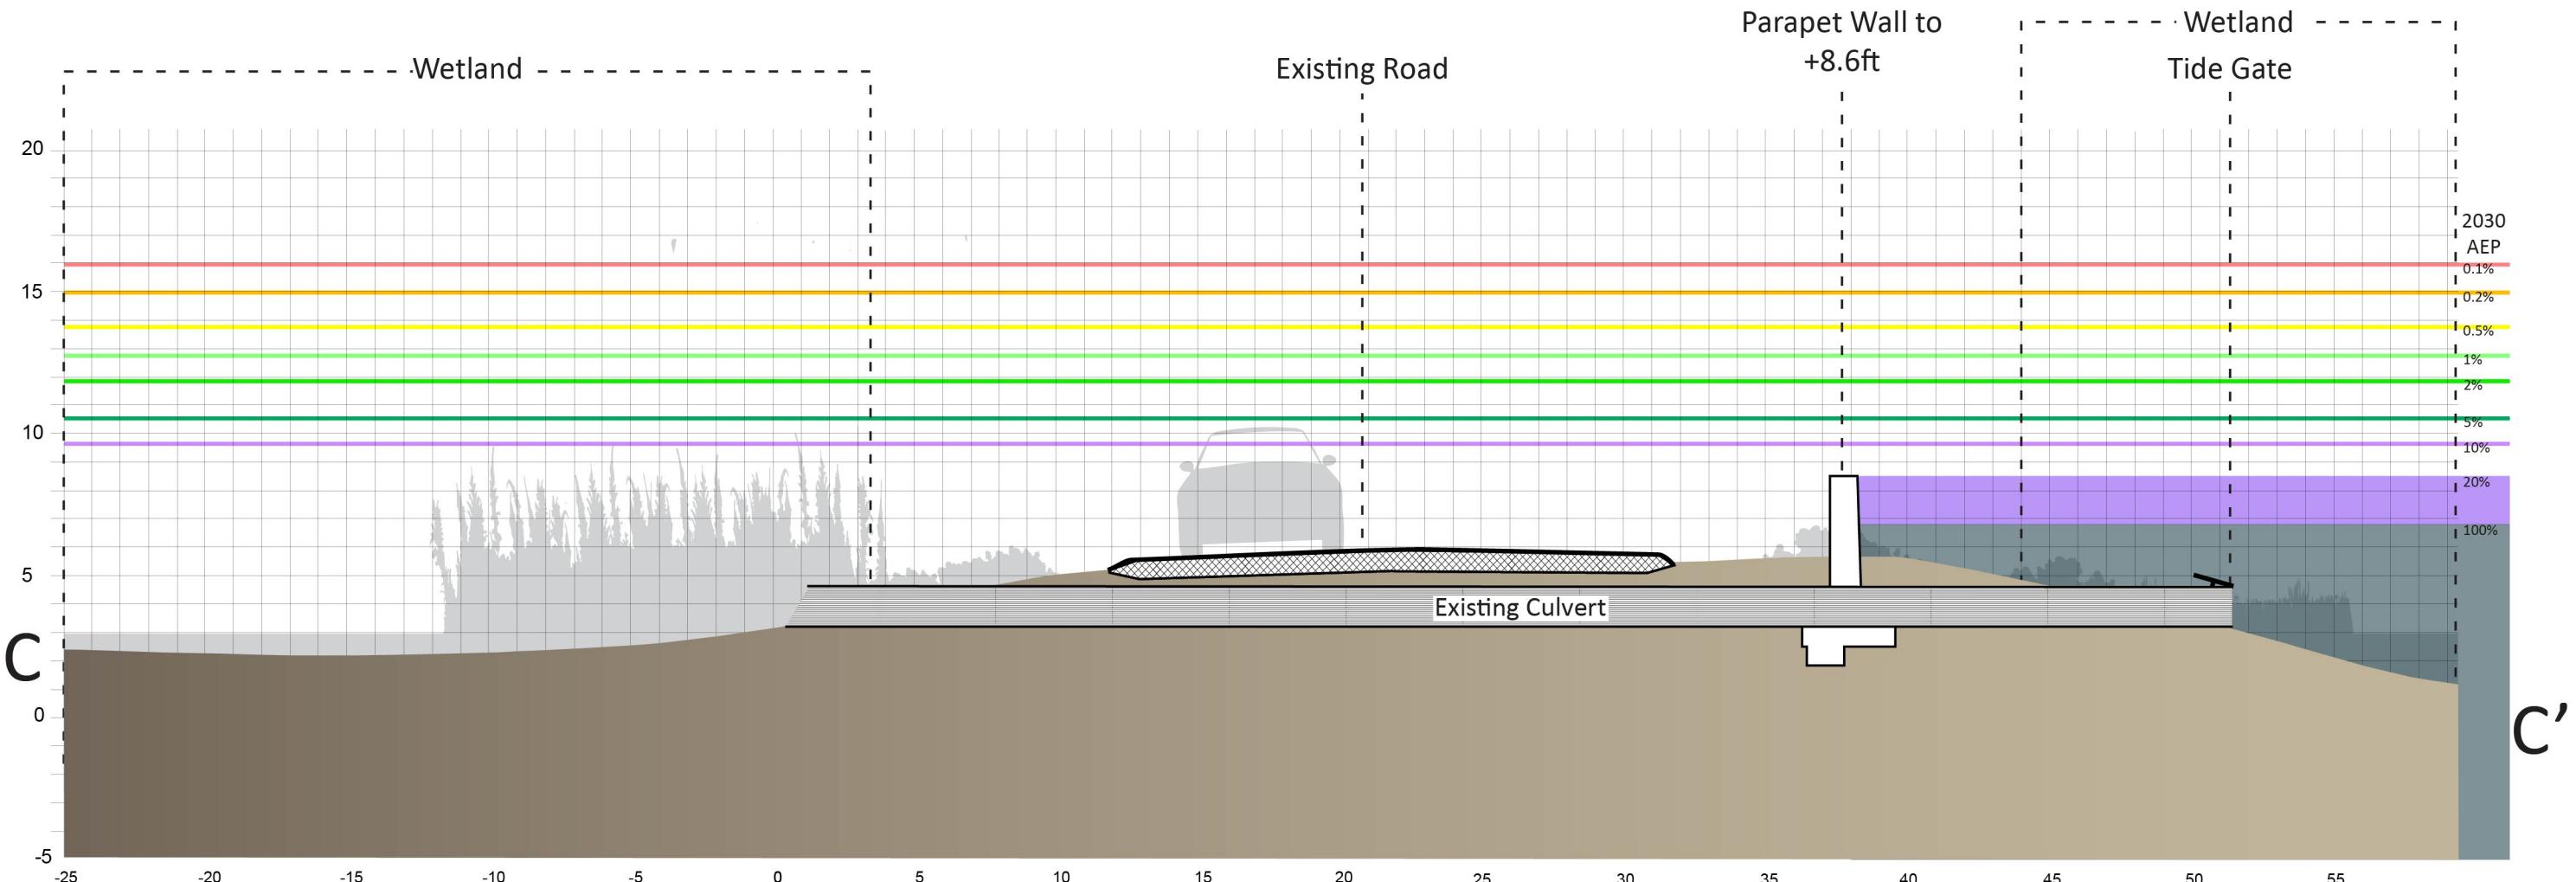

ALTERNATIVE 2: HYBRID

Parapet walls to 8.6 feet are installed to tie together high points along Circuit Ave. A tide gate is added to the culvert and raised sections of pavement to side streets to prevent flanking. A dune is constructed at the public beach, and access is preserved with a wooden walkover.

Circuit Avenue, Bourne

Note: Project overlap with wetland areas, rights of way and property lines is approximate and needs confirmation with a site survey

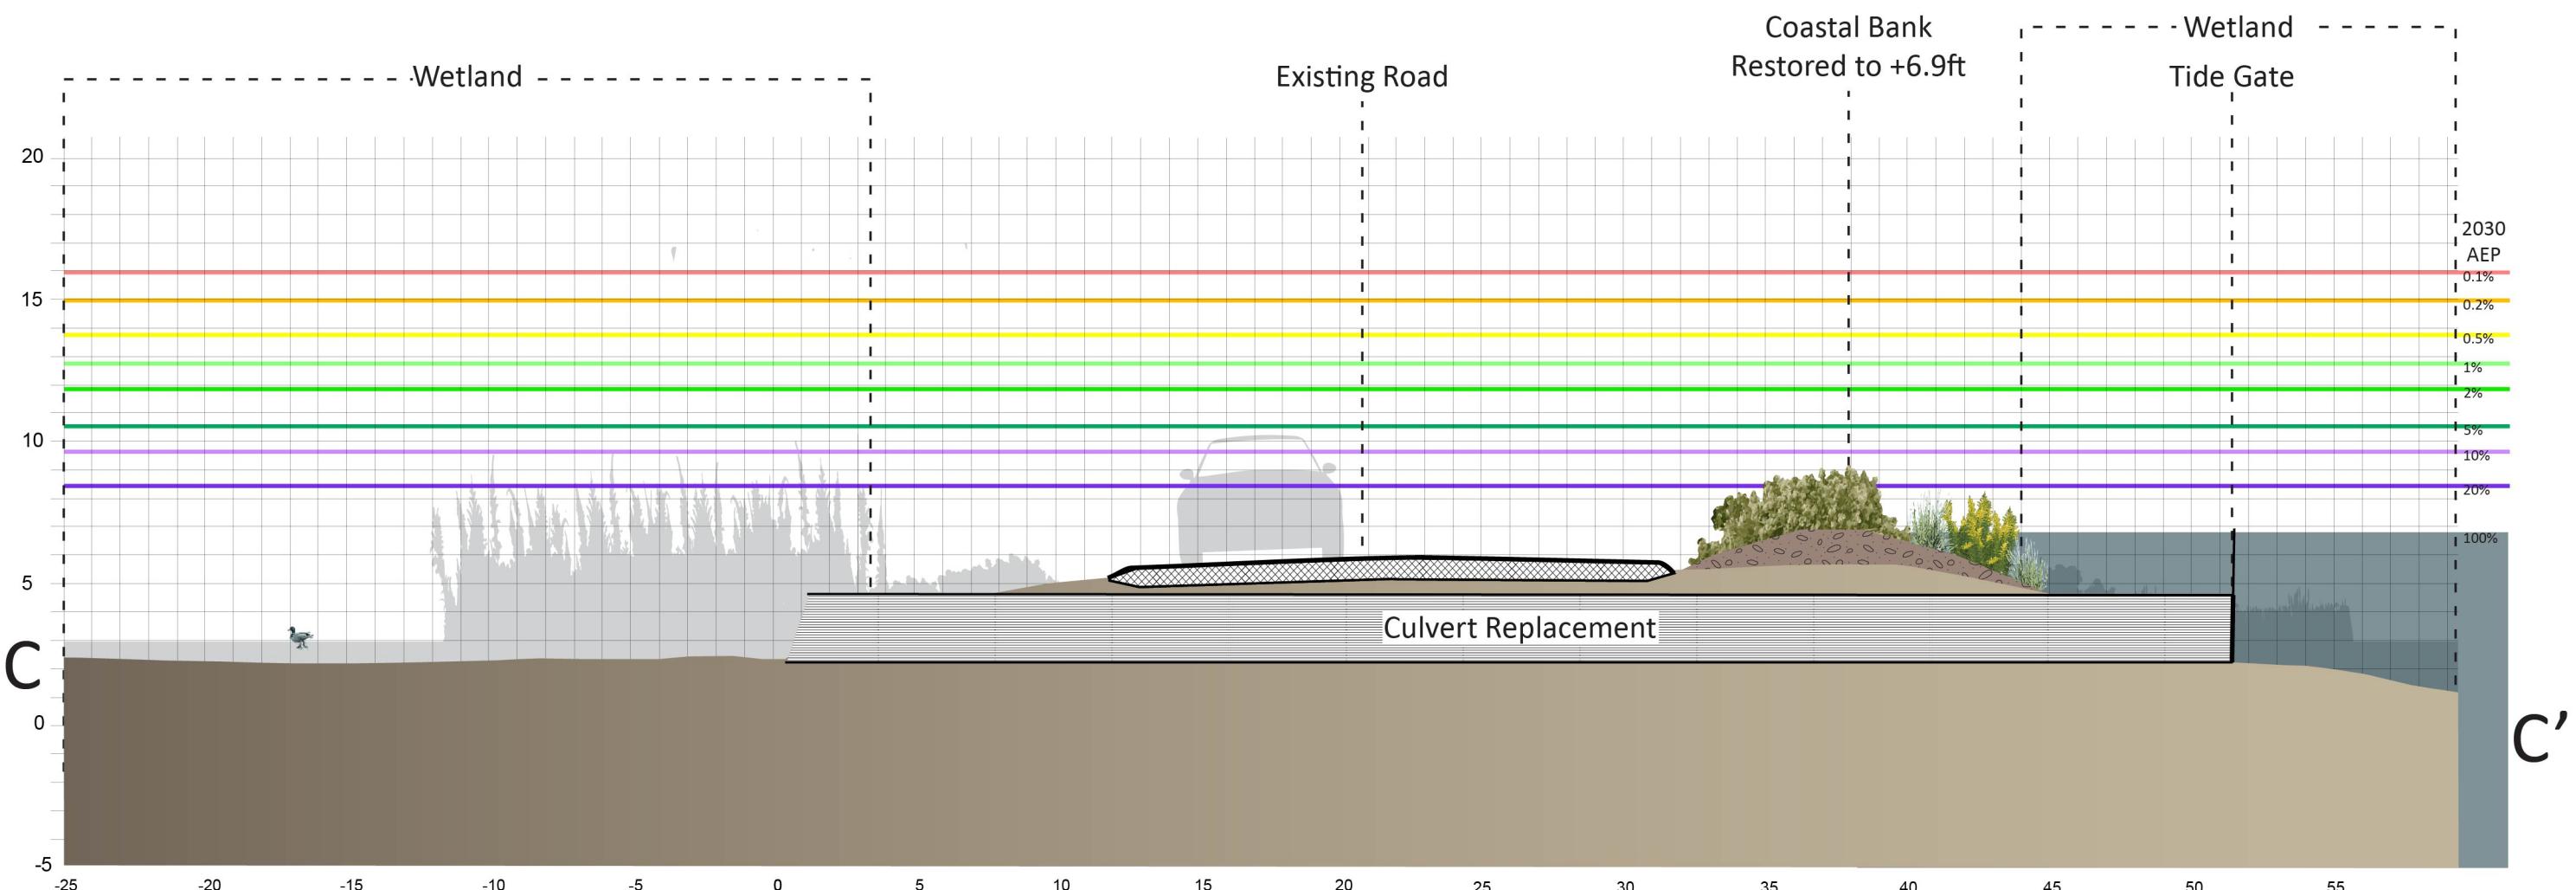

ALTERNATIVE 3: GREEN

A combination of coastal bank and dune enhancements protect the road to 6.9 feet. A dune enhancement to 10.0 feet protects the beach and parking lot from erosion. The culvert is replaced and an operable tide gate is installed.
